

# VPI Vertical Print Inspector

## D5000 Viewing System for Large Format Artwork Inspection

**ISO 3664 Standard\* Viewing Conditions**  
**Print Bar Sheet Holder**  
**LiteGuard II Viewing System Monitor**  
**Helps Maintain High Quality Color Reproduction**  
**Optional Dimming for Soft-Proofing**  
**Optional Adjustable-Height Artwork Holder**  
**Easy to Move on Included Floor Casters**  
**Available in 3 Standard Sizes**

The VPI makes visual evaluation of large format artwork quick and easy.

### Accurate $D_{50}$ Standard Viewing & Convenient Vertical Format

The VPI viewing system is designed to provide consistent and accurate ISO Standard viewing conditions in the central viewing region of the rear wall. The VPI is available in 3 standard sizes and comes complete with the LiteGuard II viewing system monitor (indicates when unit is warming up and when unit needs to be relamped). Options include: **Variable Intensity** for soft-proof comparisons, **Side Walls** for stricter control of ambient light, and a **Height-Adjustable Artwork Holder** to support 3 dimensional artwork (paintings, etc.) from the bottom.

### \*ISO 3664: Viewing Conditions - Graphic Technology and Photography

This standard was established to enhance color reproduction and color communication world wide. Compliance requires a system approach and encompasses:

- **Light Quality ( $D_{50}$ )**
- **Light Intensity (2000 Lx)**
- **Evenness of Illumination**
- **Surround Conditions (neutral matte gray)**
- **Geometry (minimized glare)**

The VPI can also be supplied with a lower luminaire for better evenness (Models VPI-40x, VPI-52x, VPI-64x).

Model	Description	Dimensions (Height x Width x Depth)	Electrical	Shipping Weight
VPI-40/ VPI-40x	40" wide x 45.25" high Print Inspector	85.5" x 42" x 33.5"	210 watts 315 watts	165 lbs (75 kgs) 185 lbs (84 kgs)
